Suggestions - Strengthening the Outcomes

- Each Annual Forum should continue producing a **consolidated document containing the outcomes**, as well as the meetings' agendas, workshops, ministerial roundtables, dialogue tables, etc. to provide a summary of the findings
- **Result-focused approach** for each session and workshop should be applied: Each session should generate a concrete outcome for future reference
- **WSIS Action Lines** should present a concise **annual progress report on the evolution of the Action Line in 15 years** consisting of emerging trends, statistics and supplemented by case studies if necessary, to be presented during the WSIS Action Line Facilitation Meetings and WSIS Action Line Facilitators Meeting and forwarded to the UN follow-up of WSIS and SDG processes
- **Annual progress review of WSIS process and its contribution to 2030 Agenda** for Sustainable Development should be prepared as an outcome of the WSIS Forum
- Annual **report and sharing of examples of global best practices through the WSIS Stocktaking**
- Annual review by **Partnership on Measuring ICT for Development** might enrich monitoring of implementation of the WSIS outcomes
- Pre-WSIS Forum **national and regional meetings** that then feed into the annual WSIS Forum in Geneva
- Further collaboration and implementation of the **WSIS Action lines and SDGs Matrix**
- **Follow up and documentation of the implementation** of the WSIS Forum Outcomes announced by Stakeholders

WSIS Forum - Strengthening linkages with the 2030 Agenda for Sustainable Development

- The WSIS forum is an annual opportunity to **benchmark progress, share success stories and learning experiences** and incentivize further action for SDGs
- The importance to increase the efforts on a **bottom-up approach** in the implementation of the **2030 Agenda using ICTs**
- To add **best practice projects or country cases** that focus on achievement of specific Action Lines and/or SDGs
- To formulate a more **comprehensive strategy** to connect with and substantively involve communities of practice including technology developers such as **entrepreneurs, start-ups, innovations hubs** etc.
- To develop an open **ICT base system** to monitor and follow up every WSIS actions to achieve SDG implementation
- The need for **private-public collaborations** to foster innovation and projects related to ICTs
- Increase the focus on action and progress. Enhance the monitoring and measuring of the SDGs and the WSIS Action Lines

Title Confident tea-garden worker

Caption A tea-garden worker who works in the garden can now-a-days maintain the connectivity with her domestic front very easily with the help of mobile-telephony. This augments her performance on the field as she gets less disturbed and more concentration because of reduced home-front hassles. This also keeps her jovial and less-fatigued in her vast working-atmosphere as she also can have her favourite tunes during her job by playing from her handset.
